Sri Maddela

Master's in Information Technology and Management, University of Texas at Dallas, May 2025

Dallas, Tx| +1 (469) 573 4235 | srimaddela1@gmail.com| LinkedIn

PROFESSIONAL SUMMARY

- **Supply Chain Professional** with 2.7+ years of extensive experience in managing **procurement**, **logistics coordination**, inventory control, and **vendor relationships**. Skilled in optimizing procurement processes to enhance efficiency and reduce cycle times.
- I am proficient in **demand forecasting** and strategic inventory management to maintain high **inventory accuracy** and availability. Experienced in logistics analysis and coordination, driving improvements in on-time delivery and **supply chain reliability**.
- Adept at leveraging **ERP** systems (**SAP, Oracle**), advanced Excel functionalities, and analytical tools like **Power BI** and **Tableau** to analyse supply chain data, **monitor performance indicators** (**KPIs**), and support informed decision-making.
- Highly effective communicator who **excels** in **cross-functional collaboration** and continuous improvement initiatives, consistently delivering significant operational **cost reductions** and supply chain optimizations.

WORK EXPERIENCE

Supply Chain Intern   Aug 2024 – Dec 2024
Edge soft, McKinney, TX,

- Managed end-to-end procurement and inventory processes using **SAP MM**, achieving an **18% reduction** in procurement cycle time.
- Forecasted and planned inventory for over **500 SKUs** utilizing **SAP PP** module, maintaining inventory accuracy of over 97%.
- Analysed **logistics** data using **Power BI** dashboards, enhancing decision-making processes.
- Improved on-time delivery performance by 22% through detailed root cause analysis.
- Coordinated **cross-departmental** efforts using SAP integration features to align **inventory planning** with financial goals.

Associate Software Engineer   June 2021 – July 2023
Accenture, India

- Managed logistics coordination and inventory management across 4 distribution centres utilizing **SAP MM** for purchase requisition, order management, and goods receipt.
- Conducted inventory replenishment planning with **SAP PP**, executing Material Requirements Planning (**MRP**) and reducing excess inventory by **15%** through analysis.
- Leveraged **SAP Fiori** applications and technical modules for efficient real-time data reporting, improving vendor relationship management and achieving an **8% reduction** in vendor lead time.
- Enhanced **ERP** system efficiency by configuring SAP MM data tables and material master settings, increasing **data accuracy** by **20%.**
- Utilized **SAP technical modules** like **SAP Query**, custom report generation to extract data for detailed monthly **Sales & Operations Planning (S&OP)** meetings, delivering actionable insights.
- Collaborated with **IT** and **functional teams** to optimize SAP module configurations, improving system response times and **workflow efficiency** by **12%.**

SKILLS

ERP Platforms: SAP MM, SAP PP, SAP Fiori, Oracle ERP, NetSuite

Supply Chain Modules: SAP MM, SAP PP, Inventory Management, Procurement Lifecycle

Inventory & Logistics Tools: Warehouse Management Systems (WMS), Transport Management Systems (TMS)

Data Analytics & Visualization: SQL, Power BI, Tableau, Advanced Excel (Pivot Tables, VLOOKUP, Macros)

Process & Methodologies: Demand Forecasting, Supply Planning, Root Cause Analysis, KPI Tracking, Cost Reduction Initiatives, Agile & Lean Supply Chain Practices

Collaboration & Documentation: Cross-functional Coordination, SOP Documentation, Business Process Mapping, Continuous Improvement Initiatives, RFQs

SAP Modules: SAP Security, SAP Basis, S/4 Hana, SAP ECC, SAP ERP, SAP BI
